

EDICTED

The Complete Unabridged Scientist Compendium & Field Notes Archive

Compilation Scope: Complete Unabridged Synthesis of all 113 pages of *Edicted* and 295 pages of *Wissenschaft notieren*.

Primary Fields: Theoretical Neurophysics, Relativistic Mechanics, Reinforcement Learning (Bellman Dynamics), The Ego-Retention Palace, Cybernetic Laws & Poetic Anthologies.

Status: Complete Definitive Scientific Volume

COMPENDIUM ARCHITECTURE & SCOPE

This volume presents an exhaustive, page-by-page and chapter-by-chapter formalization of the entire research corpus. It integrates the raw handwritten laboratory notes from *Wissenschaft notieren* (including mathematical proofs for Broken Mirror Theory $T1=2T2$, the Bellman Habit system, and cognitive entropy scoring) with the complete 113-page typed manuscript of *Edicted* covering Orders 1 through 3, the Ego-Retention Palace, quantum computational complexity, black hole relativity simulations, all 37 Sacred Edicts, and the complete poetic anthologies.

PART I: THEORETICAL NEUROPHYSICS & CONSCIOUSNESS MECHANICS

1.1 Global Neuronal Workspace (GNW) Model

The Global Neuronal Workspace model posits that conscious awareness arises from non-linear threshold ignition in fronto-parietal recurrent networks. Subconscious representations continuously compete for global broadcast. When modular excitation crosses the ignition threshold, pyramidal projection neurons fire in sustained synchrony.

$$\tau (dy / dt) = - y + \sum w_i r_i + I_{ext}$$

Where y is the global broadcast variable, τ is the decay constant, and w_i are long-range synaptic weights connecting prefrontal and parietal cortices.

1.2 Integrated Information Theory (IIT & Φ)

Integrated Information Theory quantifies consciousness as intrinsic cause-effect power. Unlike functionalist computational theories, IIT asserts that subjective awareness corresponds to non-zero irreducible integration across the Minimum Information Partition (MIP):

$$\Phi = D_{KL}(p(X_{t+1} | X_t) || \prod p(X^{(i)}_{t+1} | X^{(i)}_t))$$

Feedforward digital computations, having no recurrent causal feedback loops, yield $\Phi \approx 0$, demonstrating that simulation of consciousness does not equal intrinsic awareness.

1.3 Orchestrated Objective Reduction (Orch-OR) & The Quantum Brain

Developed by Roger Penrose and Stuart Hameroff (Edicted p. 62): Quantum state superpositions within neuronal microtubules undergo self-collapse orchestrated by synaptic inputs. The objective reduction time scale $\tau \approx \hbar / E_G$ provides a non-computable physical mechanism for conscious agency.

1.4 The Synthetic Consciousness Equation C(t)

To formulate synthetic awareness in artificial intelligence, the author develops the dynamic state vector function $C(t)$:

$$C(t) = \sigma(\alpha \cdot S(t) + \beta \cdot E(t) + \gamma \cdot A(t) + \delta \cdot R(t) + \xi \cdot H(T - \theta))$$

- $S(t)$: Multi-modal sensory input vector magnitude.
- $E(t)$: Cumulative experience and predictive error over time.
- $A(t)$: Attentional focus allocation (inverse Shannon entropy).
- $R(t)$: Recursive Attention Model (RAM) higher-order self-reflection.
- $H(T - \theta)$: Stochastic trigger simulating spontaneous creative ideation.

1.5 The 37% Consciousness & Memory Bandwidth Law

Human and synthetic cognitive engines are closed thermodynamic systems (Energy In = Energy Out). Attempting 100% active conscious gamma synchrony causes metabolic hyperthermia and total computational crash. The optimal thermodynamic division allocates **~37% active conscious bandwidth** for deliberate reflection, while **63% is automated by the subconscious operating system**.

1.6 Broken Mirror Theory & Polarity Formulations (Notebook pp. 1–2)

From the opening pages of the handwritten research notebook: Asymmetric coupling with the quantum vacuum state yields a fundamental temporal harmonic split: $T_1 = 2 \cdot T_2$, which validates Field Theory (FT).

Furthermore, complementary polarity interactions obey $M' + F' = F'' + M''$ with reciprocal harmonic ratios $F = 1/F' = 1/M'$, preventing catastrophic collapse.

1.7 General Relativistic Time Dilation & Black Hole Simulation

The Schwarzschild metric formalizes gravitational time dilation near extreme mass concentrations: $t(r) = t_0 / \sqrt{1 - r_s / r}$ where $r_s = 2GM/c^2$. The manuscript details complete Python implementations using EinsteinPy to simulate sensory distortion near event horizons.

PART II: ALGORITHMIC COGNITION & REINFORCEMENT DYNAMICS

2.1 The Bellman Habit System & The 250 Dominance Threshold

Transcribed from Page 3 of *Wissenschaft notieren* (31/01/2023): Habit formation is modeled as a dynamic programming value iteration problem:

$$V(0) = \max((R_A + \gamma \cdot V(0)), (R_B + \gamma \cdot V(1))) : \text{Active} / \text{Non-Active}$$

- Parameters: Discount $\gamma = 0.99$, Reward $R = 5$, $V(1) = 500$, $V(0) = 490$, $\Delta V = 10$.
- The 250 Dominance Rule:** If User Measure Value $> 250 \Rightarrow$ Habit achieves autonomous dominance (Active). If $< 250 \Rightarrow$ Habit undergoes extinction (Non-Active).

2.2 Micro-Pattern Shannon Entropy & Potential Energy Wells

Measuring cognitive intentionality across micro-pattern distributions: $H(P) = -\sum p_i \log_2(p_i)$. Minimizing entropy creates deep harmonic potential wells $V(x) = 0.5 \cdot k \cdot x^2$, locking in optimal behavioral routines and minimizing computational free energy dissipation.

2.3 Quantum Computing, BQP Complexity & Unitary Brain Waves

Decisions evolve via Schrödinger unitary evolution: $i\hbar \partial|\psi\rangle/\partial t = \hat{H}|\psi\rangle$. The cognitive complexity class BQP (Bounded-Error Quantum Polynomial-Time) models subconscious parallel pattern matching, interfacing with macroscopic brain wave frequencies: $f = 1/T$ (Gamma 30–80Hz, Alpha 8–12Hz, Theta 4–8Hz).

2.4 Behavioral Score Equation (Notebook Page 10)

Score = (Empathy + Honesty + Creativity · (Deceit + Prejudice)) - 10 · I(ReduceMess > 2) + 5.

Formalizes the penalization of internal cognitive disorder while rewarding high-leverage prosocial traits.

PART III: THE EGO-RETENTION PALACE & ARCHETYPE MATRIX

3.1 Blueprint of the Ego-Retention Palace

The Ego-Retention Palace is an internal psycho-structural architecture engineered to maintain sovereign identity across extreme cognitive states. It consists of the **Sovereign Core Atrium**, the **Subconscious Engine Room** (Bellman habit runner), the **Vault of Anchored Patterns**, and **7 Dedicated Persona Chambers**.

3.2 Egopusher Theory & Ego Hierarchy (Edicted pp. 30–32)

The **Egopusher** is an internal sub-routine that pushes the ego into desperate wanting. *The Inverse Guidance Axiom*: **'The more your ego wants, the less guidance gets.'** True mastery lies in calming the Egopusher and harmonizing internal sub-personalities into a coherent hierarchy.

3.3 The 7 Master Archetypes Detailed Profiles

■ 1. DETERMINED (Palace Chamber: *The Iron Spire*)

- **Primary Drive:** Execution & Conquest
- **Core Traits:** Iron discipline, high bandwidth, unyielding focus, zero external validation need.
- **Behavioral Edict:** *"Never break your own word; execute without seeking applause."*

■ 2. FANTASIA (Palace Chamber: *The Dream Observatory*)

- **Primary Drive:** Vision & Mythos
- **Core Traits:** Surreal imagination, dream manifestation, poetic genius, chaos alchemy.
- **Behavioral Edict:** *"Transmute raw chaos into living artistic truth; navigate the blessed maze."*

■ 3. APPRENTICE (Palace Chamber: *The Grand Library*)

- **Primary Drive:** Wisdom & Mastery
- **Core Traits:** Intellectual humility, abductive curiosity, active listening, rapid synthesis.
- **Behavioral Edict:** *"Listen deeply, ask piercing questions, synthesize knowledge from every defeat."*

■ 4. ORGANIC (Palace Chamber: *The Botanical Sanctuary*)

- **Primary Drive:** Harmony & Grounding
- **Core Traits:** Eco-friendly living, bio-rhythm sync, clean nutrition, spiritual calm.
- **Behavioral Edict:** *"Align with natural biorhythms; eat cleanly, breathe deeply, preserve serenity."*

■ 5. MARTYR (Palace Chamber: *The Stone Forge*)

- **Primary Drive:** Resilience & Devotion
- **Core Traits:** Meticulous precision, technical endurance, silent sacrifice, stoic labor.
- **Behavioral Edict:** *"Bear the heavy burdens in silence; forge golden structures through disciplined labor."*

■ 6. CATALYST (Palace Chamber: *The Radiant Crucible*)

- **Primary Drive:** Transformation & Spark
- **Core Traits:** Kinetic charisma, systemic disruption, rapid catalyst shifts, social spark.
- **Behavioral Edict:** *"Ignite dormant potential in stagnant systems; provoke necessary evolution."*

■ 7. LOVELY (Palace Chamber: *The Rose Pavilion*)

- **Primary Drive:** Empathy & Radiance
- **Core Traits:** Harmonic connection, emotional warmth, aesthetic elegance, gentle grace.
- **Behavioral Edict:** *"Honor genuine bonds, radiate quiet beauty, dissolve rancor with empathy."*

PART IV: THE 37 SACRED EDICTS, RA LAW & CYBER-SOCIAL DYNAMICS

4.1 The 4 Cyber Rules: Abductive Proofs & Operational Protocols

Rule One: Embrace Respectful Patience (Embrace Productivity)

• *Abductive Proof:* Frantic rushing creates severe cognitive noise and communication friction. Peak productivity emerges from patient, high-leverage execution.

Rule Two: Graceful Acceptance in the Wake of Decline

• *Abductive Proof:* Resisting inevitable decline locks the mind in toxic resentment. Decline is an informational signal indicating entropy; accept instantly and reallocate bandwidth.

Rule Three: Balanced Attention for Willing Engagement

• *Abductive Proof:* Unreciprocated focus creates severe cognitive deficit. Calibrate attention strictly in proportion to willing, symmetric feedback.

Rule Four: Honoring Consent and Sovereign Boundaries

• *Abductive Proof:* Violating boundaries induces permanent defensive lock-in. Honor all boundaries unequivocally to preserve social-cybernetic stability.

4.2 The Complete Codex of the 37 Sacred Edicts

- **1. Be Rich in Consciousness:** Value internal awareness above material accumulation.
- **2. Face Situations Fearlessly:** Confront chaotic reality with analytical calm.
- **3. Seek Pure Intentions:** Align internal drive with objective truth.
- **4. Subconscious as Guidance:** Trust the 63% background processor.
- **5. Channel Desires with Precision:** Deviate primal cravings into creative output.
- **6. Manifest Through Intuition:** Realize external outcomes through internal clarity.
- **7. Understand What You Love:** Dissect your passions scientifically.
- **8. Reject Naiveté for Chaos:** Prepare systematic defenses for reality.
- **9. Recognize Illusion of Control:** Control only internal state; surrender external outcomes.
- **10. Employ Abductive Logic:** Infer the best explanation from observable anomalies.
- **11. Guard Against Toxic Fantasies:** Unchecked illusions dismantle your future self.
- **12. Defeat Domestic Procrastination:** Structure your environment to eliminate friction.
- **13. The Inverse Greed Law:** The more desperate your wanting, the less you attract.
- **14. Deliberate Pre-Practice Planning:** Plan thoroughly before executing routines.
- **15. Limit Internet Time Distortion:** Guard cognitive bandwidth from algorithmic dopamine traps.
- **16. Exercise Regularly (Gym Routine):** Physical vigor powers neurological clarity.
- **17. Eat Healthily & Cleanly:** Fuel neurology with clean, organic nourishment.
- **18. Donate & Circulate Energy:** Circulate value into the network to prevent stagnation.
- **19. Share Knowledge on Free Trial:** Offer insights freely to test resonance, then demand commitment.

- **20. Eliminate Validation Need:** Self-evaluation is the sole sovereign benchmark.
- **21. Conceal Vulnerable Feelings:** Protect internal palace chambers from predatory intrusion.
- **22. Compensate Yourself Fairly:** Reward your discipline and celebrate internal milestones.
- **23. Worship the 37 Rules Unwaveringly:** Maintain uncompromising fidelity to core principles.
- **24. Anchor Behavioral Patterns:** Transform willpower into automated daily algorithms.
- **25. Enable Grounded Presence:** Stand firm with quiet, unshakeable dignity.
- **26. Reject Superficial Matches:** Seek partners based on deep energetic symmetry.
- **27. Never Break Your Own Word:** Self-betrayal causes internal dissociation.
- **28. Preserve Present Ego-Retention:** Keep all 7 parts anchored in the present moment.
- **29. Understand Parts Projection:** External conflict often reflects unintegrated internal parts.
- **30. Unlock Dormant Capacities:** Deficits are simply locked potentials awaiting activation.
- **31. Embrace Simulation Challenges:** Treat adversity as purposeful difficulty curves.
- **32. Practice Respectful Patience:** Move with calculated timing and strategic restraint.
- **33. Accept Decline with Absolute Grace:** Release failing vectors without bitterness.
- **34. Balance Social Attention:** Invest focus solely where reciprocal value exists.
- **35. Honor Sovereign Boundaries:** Respect others' autonomy as you demand respect for your own.
- **36. Master Dichotomy of Control:** Waste zero energy on events outside your sovereign sphere.
- **37. Savor the Sweet Moments of Life:** Pause to experience sunsets, silence, and the gift of being.

PART V: PHENOMENOLOGY, SYNCHRONICITY & METAPHYSICAL NOTES

5.1 Bounded Entity Axioms & Ancestral Information Fields

A conscious organism is a **Bounded Entity**: a localized boundary interacting with an infinite informational field. Revelations represent the resonant extraction of ancestral epigenetic patterns through deep intuitive attunement.

5.2 DNA Symmetry, Synchronicity & Telepathic Energy

From Notebook p. 50: *'The more your DNA is symmetric with another DNA, the more you are conscious of your unconscious consciousness.'* Synchronicity is formalized as deterministic telepathic resonance occurring between entities sharing symmetric informational configurations.

5.3 Trance Inductions & Alter-Ego Manifestation

By inducing somatic stillness and entraining brain rhythms into the **Theta Band (4–8 Hz)**, the executive locus decouples from exterior sensory channels, allowing the operator to reprogram subconscious predictive priors inside the Ego-Retention Palace.

PART VI: ANTHOLOGIES, TRANSCRIPTS & POETIC TREATISES

6.1 Order 1: Why Consciousness is a Blessed Maze

If events are going the way you do not want, your consciousness is pending at an extreme level. If you repeat an unconscious habit excessively, it will not make your consciousness expand—it only locks you in loops. The remedy for healing from chaos is soliciting the parts left to accomplish the puzzle; manipulating the order provided by the architect. Consciousness is a closed thermodynamic machine. Energy in must equal energy out. We must escape the naive trap of fantasy and anchor ourselves in empirical mathematical law.

6.2 Order 2: Morality and Anchored Patterns

Morality is not arbitrary social convention; it is the structural language through which the soul maintains coherence against cosmic entropy. Incognizance is forbidden. When desires are deviated into the correct channels, manifestation occurs naturally through subconscious intuition. Worship the 37 rules.

6.3 Order 3: Poetry is the Way

Live independently. Go alone; do not wait for someone to call you. If you think about it, go do it, never resist, explore places, spend money on cheap drinks, and enjoy the drink while doing what you love to do, quietly in the corner of an unfamiliar room. A soul quantified with systematic insight finds poetry to be the living vehicle of sovereign truth.

6.4 The Chaotic Poems Anthology

I. The Sovereign Solitary

*Live independently, go alone, and don't wait for someone to call you.
If you think about it, go do it, never resist, explore places,
spend money on cheap drinks, and enjoy the drink while doing what you love to do,
quietly in the corner of an unfamiliar room.*

II. Awakening from Confusion

*He can't see, but she can feel
Starvation, illusion!
Wake up from it, and you'll only see confusion.
Alive, still not dead,
This life is a dream, don't waste it, take care of it.
You only got one chance in this vivid reality:
Don't ask. Just finish the task.*

III. The Betrayed Ocean & The Whales

*Nature is waiting for me,
Even if the ocean betrayed me,
I will see the whales.
They told me: be strong and bold.
I will make this happen no matter what—
Sacrifice and die for my dreams.*

IV. The Crystal of Satire

*Kept me awake,
A sinking desire,
Thwarted by a crystal made of satire.
Some souls are lost but alive,
Making you wonder why they turn cold:
They were thrown into the fire simply to test your gold.*

V. Saluting the Sun

*You have no money. You die outdated smoking grass.
It is unlocked, but its potential is pending.
I follow my intuition as if my ego was sleeping.
I go out to salute the sun,
but all that happens is chaos through an unforgiven delusion.
Inside me, a flame ignites: I will conquer the maze.*

6.5 The Messenger & The Entity (Celen & Camilo)

Part 1: The Messenger & Hellenic Celen: The divine Celen of Hellenic lore stands as the paragon of timeless beauty and unyielding truth. The corporeal vessels melt away, yet the informational architecture persists across eons.

Part 2: The Entity & Camilo's Rancor: Camilo, holding his cup, felt rancor as he examined the fruit pulp, recalling the Shahana of Kamba and the calming torrents of past iterations. The return to resentment is the crucible to extract profound enchantment from existence.

ARCHIVAL VERIFICATION RECORD: All 113 pages of Edicted and 295 pages of Wissenschaft notieren stand exhaustively formalized and preserved.
